

SAMPLE LETTER TO HOUSE REPRESENTATIVES AND SENATORS:

Representative, Jason Chaffetz, R-Utah, has introduced a bill in the House, H.R. 4751, Local Enforcement for Local Lands Act of 2016. This bill will strip the Bureau of Land Management and the U.S. Forest Service of their law enforcement authority. We are requesting that the House and Senate both support this bill, and ask your fellow Representatives and Senators to do the same.

We now have more than 30 American citizens (some ranchers) sitting in prisons out west because they peacefully protested the overreach of our Federal Government and the Bureau of Land Management, who are illegally running off ranchers, literally stealing the land which belongs to the American people. This is clearly in violation of our Constitution, Article I, Sec. 8, Clause 17. We have even had a rancher, LaVoy Finicum, murdered in Oregon at the end of January because he was standing up peacefully to stop the overreach of the BLM and US Forest Service.

We are very disappointed as our government continues to ignore this problem. The 4th Branch of our government, the Department of Interior, who subcontracts the Bureau of Land Management, is allowing this foreign corporation to abuse our Constitution, and as well, abuse our ranchers and the American people. I have seen videos of the BLM bragging how they don't have to abide by our Constitution. They really believe that they are above the law. This could be why so many ranchers have been threatened, and now Americans, ranchers and even journalists are in prison with no real charges on them. This bill that Representative Chaffetz is introducing to the House will stop the abuse, and fix the problem!

We are asking that every Senator/Representative take into consideration this bill. We want it passed before anymore American lives are taken in regard to this abuse. The Bureau of Land Management is a foreign Corporation and has no legal authority, nor any business making their own laws and threatening the American people.

This letter is to inform you that we are monitoring your votes via

“govtrack.us” on these bills. We will be sharing how our elected representatives are voting on these important issues. This way people can see who in the House and Congress are actually working for We The People. This letter will also put all on notice in the House and Senate, to do your jobs, respect what the people want, and vote accordingly. The American people have the right to not elect you back into office if you continue to fail us.

Sincerely,
